

What's Up, Doc? †

July 2023 (Eastern Daylight Time)

Dr. Aaron B. Clevenson, Observatory Director, Insuperity Observatory in Humble ISD

This document tells you what objects are visible this next month for many of the Astronomical League Clubs. If you are working on one of the more advanced clubs, then I assume that you are tracking where your objects are all the time. I have concentrated on the common and starter level clubs. This information is based on 9 PM Eastern Time at about 39° North Latitude (Washington DC).
